About Golden View

◉ The Origin of Company Name

The 007 film "Golden Eye" was a sensation in China at the time our company was established, which gave the inspiration for the name Golden View. It indicates a golden vision of a bright and fruitful future.

◉ The Establishment

In 1996, Golden View was established in Shenzhen, China, by Ms. Mi Jia, who is one of the pioneers of China's localization industry. She started the new business on her own and at first the Company mainly provided a Simplified Chinese localization service to IBM (China). We have since completed many IBM software localization projects involving PC, DB2, AS/400, RS/6000, Programming Languages, HTML, etc., and have accumulated extensive experience and skills in the software localization industry. Along the way, we have nurtured and developed a highly qualified and professional localization team. Golden View has since grown to become the leading provider of Chinese localization solutions.

◉ Overview

Based in Shenzhen, which is one of China's Special Economic Regions, Golden View (China) Technologies, Inc. is a professional translation and localization service provider. We specialize in software localization, localization engineering, document translation, multilingual DTP, website localization, voice-recording, interpreting, and more. To date, Golden View has established long-term, stable business relationships with more than 150 clients from all over the world, and maintains an excellent reputation in the localization industry by offering top expertise and first-class service.

Shenzhen headquarters

Service

Software Localization

Golden View is one of the pioneers in providing localization services in China. During the current decade we have successfully completed thousands of software localization projects for many high-end international customers, reducing the timeframe required for launching a product into the market.

Website Localization

With professional teams in website localization, translation and optimization, we are capable of providing customized website globalization solutions to meet your specific needs. These range from content localization, structure localization and style localization to website optimization.

Localization Engineering

10 years of localization experience plus a veteran localization engineering team ensure our ability to tackle tricky problems and difficulties during the engineering process. On-time and satisfactory delivery is just one of the reasons for you to choose us as your best strategic work partner!

Document Translation

Golden View has built up a global repository of selected translator resources , including over 2000 senior professionals majoring in more than 30 fields, with a capacity to provide translation services into 69 languages. Keeping quality and time in mind is our top priority.

Multilingual DTP

With strong DTP team, thousands of fonts, and more than 10 years of experiences, Golden View can support various typesetting needs.

Multimedia Localization

We offer audio recording, voice over, subtitling into Asian and European languages cost-effectively.

Interpretation

With our professional service, highly competitive pricing, efficient cooperation and strict code of ethics, Golden View's interpretation services attract many clients for the long term. At present, Golden View has built a powerful network of qualified interpreters which covers China and UK, as well as other countries in Asia and Europe. We are capable of providing top level interpretation services for your world-around business trip, helping you win instant success.
